HAVE COAT-OF-ARMS, TOO

One Local Kelly Got a Letter
Telling Him the Glad
News

Has anybody here seen Kelly? K-E-
.....double L-Y.

Has anybody here seen Kelly? Kelly
with the green necktie.
Sure his hair is red and his eyes are
blue;

He's an Irish gentleman through and
through.

Has anybody here seen Kelly? Kelly
from the Emerald Isle.

Are you a Kelly?

If so, puff out your chest, hold your
chin high, and walk the earth with
real tread for according to a letter
received by one local Kelly at least—
and perhaps there are more—all Kel-
lys are descendants of ancient Irish
kings and for the modest sum of \$1.

any member of this great family will
be sent the famous Kelly coat of arms.

The letters are sent out by a Philadel-
phia concern that makes a business
concern of looking up family trees, and
the Kellys all over the United States and
Canada are receiving the glad news.

Finds Kellys Were Kings
The "discovery" that Kelly was
once a king of Ireland was made by a
representative of the Philadelphia

concern who spent years of research in
the libraries of Dublin, Cork, and Bel-
fast. The ancestral coat of arms is
something that every Kelly should
have—according to the letter—and it
is, therefore, Kelly to remit his \$1 without
delay.

The letter in part is as follows:
My Kelly—Dear Sir: We have just
received from our agent in Dublin a
rare old engraving of the coat of arms
of the Kelly family. We are now pro-
ducing this for framing and printing a
pamphlet, describing it and giving
the lineal descent of the first Kelly
from Heremon, first king of Ireland,
and through a long line of Irish monarchs.
Only enough will be printed to
satisfy all orders. The price is
only \$1. Send cash with order.

Just See the Arms of Kelly
Have you noticed Kelly since he got
the word from Philadelphia? He holds
his head higher than usual and he
will hardly look to the Grays and
the Kellys.

"What's come over Kelly?" is the
question his neighbors are asking.
When a Kelly meets a Kelly they
will shake hands cordially and the
conversation will be about their an-
cestral coat of arms.

D. D. Mann Writes to Secretary
of Landing Board of
Trade

According to a letter received by
the secretary of the Board of Trade
this morning from D. D. Mann, sec-
retary of the board at Athluskla
Landing the construction of the rail-
road between Edmonton and the
Landing is going to be hurried this
season.

Enclosed in the letter was a
copy of a letter to Mr. Mann, from
Mr. D. D. Mann, in which the latter
states that definite instructions have
been issued to the construction de-
partment of the C. N. R. to complete
the road this season if at all possible.
Mr. Mann goes on to say that if the
road is not completed the responsibility
will be with the secretary of la-
bor and materials.

To Sell War Ships
Washington, D.C., July 15.—Secretary
of the Navy Meyer has ordered the
sale of the third class cruise ship
Detroit and Boston, the amphibious
cruiser and the torpedo boat Winslow.
From a military standpoint the use-
fulness of these vessels has passed.

LIKES EDMONTON

Hamilton Man Much Struck with
Possibilities of This City.

Mr. J. P. McBride, a visiting man-
ager in Hamilton, Ont., for the To-
ronto Globe, who is in the King
Edward Hotel, Mr. McBride, in
company with his wife, who is at
present in Calgary, is making a pleasure
tour in the West. Speaking of Ed-
monton, Mr. McBride says that it
reminds him of an Ontario town more
than any of the other places in the
West he has yet visited. He says,
however, that the people seem more
enterprising. In comparing Edmon-
ton with Calgary, Mr. McBride ex-
pressed the opinion that a few years
would see this city outstripping the
southern metropolis. The different
railroads, entering this city would
soon begin to tell. He also thinks
that this district is a better agricul-
tural country.

GUELPH MAN WON GRAND AGGREGATE

Canadians Continue Their Good
Work at The Bisley
Meet

Bisley, July 15.—Private Steele, of
Guelph, is the winner of the
Grand Aggregate, open to all
comers, and awarded to the com-
petitor making the highest aggregate
in following competitions: King's
Prize (first stage), St. George's Vase
(first stage), Alexander, Daily Graphic
Daily Telegraph and Graphic.

What He Wins.
He thus wins the Challenge Trophy
of the N.R.A. Gold Cross, and £20, and
the Lord Strathcona Cup for the
highest Canadian in the Grand Aggre-
gate.

Captain Crowe takes the Canadian
Company's Prize, a gold watch, in
this competition.

In the shoot off, the competitors
tied at 10 in the first stage of the
King's Prize, three Canadians, Ser-
geant Eastwood, Private McKie, and
Lieut. Rowe secured places. Thus 21 of
the 26 Canadians who shot in the first
stage will shoot on Friday in the
second stage.

St. George's Vase.
Shooting took place to-day in the
first stage of St. George's Challenge
Vase, being seven shots each, 50
and 600 yards. The one hundred
competitors taking the highest places
in the aggregate at this stage will
shoot on Saturday in the final stage,
being 15 shots at 200 yards. Possi-
bly after the King's Prize, the St.
George's is the most coveted individ-
ual trophy shot for annually at Bisley.

Canadian Scores.
The following are the scores made
yesterday by the Canadians:

TO CONFER WITH CANADIAN BOARD

United States Appoints Delegate
to Discuss Railway Rates
With Mabee

MAY HAVE JOINT CONTROL

An International Commission to
Control Railway Rates
May Result

Washington, D.C., July 15.—An in-
ternational commission with super-
visory authority over the railroads of
both the United States and Canada
will probably be the result of the ac-
tion taken yesterday by the govern-
ment in the appointment of Chairman
Knapp, of the Interstate Commerce
Commission as a representative of
the United States to confer with G. P.
Mabee, chairman of the railway com-
mission of Canada, on the subject of
joint control of international traffic rates.

Have Some Control Now
The investigation of the freight rate
increases, which the interstate com-
merce commission will take up next
week will cover not only the advances
between points in the United States,
but advances between points in the
United States and Canada. The rates
examined will be those in the official
classification territory in the United
States and Canada. The interstate
commerce act explicitly gives the
commission jurisdiction, over such
rates, the only limitation being that
American railroads are held responsible
or them.

TROOPS TO FIGHT BIG SHAM BATTLE

Fusiliers Will Try to Take G.T.P.
Shops—Mounted Rifles Will
Stop 'Em

The inspection of the 101st Fusiliers
by Colonel Cruickshank will take
place today on the land north of the
Hudson's Bay company's property.
The regiment will muster at the Ar-
mory at 7:30 p. m. and will proceed
from there on a quick march to Alberta
Avenue, at which point the inspec-
tion will commence.

A sham fight will then take place
in which the 101st will advance north-
wards from Alberta avenue, their object
being to seize the Grand Trunk Pa-
cific Railway Company's shops. The
support of the Alberta Mounted
Rifles will defend the position and
make an attack on the 101st as they
advance.

Better Not Stay Away
Absence from inspection will be re-
garded as a serious offence and any
member not attending will be liable
to be brought before the magistrate
and fined under the Militia Act.

The camp at Cooking Lake is in readi-
ness for the regiment and an ad-
vance party will be sent out to-day.
On Saturday morning the regim-
ent will assemble at the Armoury
at 8 o'clock and proceed out to the
camp. Each man is to provide him-
self with soap, towels and other nec-
essary articles. The regiment will re-
main in camp for three days, return-
ing to town on Monday evening.

Owners of boats on Cooking Lake
have very kindly placed them at the
disposal of the regiment. Good cooks
have been engaged and a comfortable
meal will be provided for the force. It
is hoped that the employers of labor
will allow their employees who belong
to the regiment, leave of absence as
of the camp will be not only an outing
for the men, but part of the annual
training.

Inspection Last Night
Companies E, F, G and H of the
101st Fusiliers were inspected last
evening and performed their company
drill with smartness and precision. At
the conclusion of the drill Lt. Col.
Cruickshank addressed the men and
expressed his satisfaction with the
performance. The companies did not
turn out in their full strength, but
those who were present displayed
keen interest in their work and mark-
ed smartness and precision in all their
movements.

GEMS WORTH \$400,000.

Expected that Attempt Will be Made
to Smuggle Them.

New York, July 15.—Customs offi-
cials at New York have been warned
to watch for diamonds valued at
\$400,000 which were smuggled last
week from Luderitz Bay in south-
west Africa. There are suspicions
that the diamonds will be carried to
New York. The smugglers defrauded
the German government of
\$133,333.

HORRORS!

Ottawa, July 15.—Earl Grey, ac-
cording to arrangements made so far,
will start on his Hudson Bay trip
about the first week in August. His
Excellency has expressed his willing-
ness to rough it, and with the Indians
he will handle a paddle himself and
will also put up with camp cooking.

EAT ALL YOU WANT WHEN AT THE FAIR

Big Dining Hall Is Being Erected
—It Will Hold Five Hundred
People

WILL BEAUTIFY THE PARK

Flower Beds and Lawns Being
Laid Out—Ready by the
Opening Day

The problem of "feeding the Multitu-
de," which is always such a difficult
one at large exhibitions has been sat-
isfactorily solved by Manager-Harris-
son of the Exhibition Association, and
a large dining hall with a seating ca-
pacity of five hundred is being erected
in the grounds close to the recreation
park. The kitchen is attached behind,
with the ice house and all other nec-
essary accommodations.

The catering will be done by Mr.
J. V. Dodge on behalf of the asso-
ciation and the following arrange-
ments have been made for service and
prices which ought to suit every mem-
ber of the public.

In one portion there will be a lunch
concer where the person who is in a
hurry can get a quick meal at 8 small
cost. There will be a regular 25-cent
meal in the main hall served at little
tables to hold four or six, and at the
same time there will always be a long
menu from which extras can be order-
ed at a charge. In the dining hall
of the hall meals will be served to
the directors and their friends at a
cost of 50 cents.

Near Recreation Park
Great care is being taken in the
furnishings of the hall so that every-
thing shall be as comfortable as pos-
sible and the service as arranged
should cater for everybody. The hall
has been situated near the recreation
park with the idea that it afterwards
might be used in connection with the
park and any scores giving picnic
or other entertainments, there could
take the use of it.

A long veranda is being built out-
side the hall and meals will also be
served there.

The Lighting System
Superintendent Ormsby has mapped
out an excellent system of light-
ing the grounds which will be put into
effect as soon as possible. Mr. Ramsay
is making arrangements for the flower
beds and borders in the grounds and
it is expected that everything will be
in full bloom by opening day.

The city engineers are engaged on
the various plans for the remaining
buildings. Mr. Von Ouberg, assisted
by three drafts-men is hard at work
getting all the plans completed in
as short a time as possible.

WILL DELAY THE WORK
Company Cannot Supply the City
With Rails Until September

The city commissioners have re-
ceived a letter from the Canadian
National Construction Company, Ltd., stating
that the Drummond-McCall Company,
with which company the city placed
orders for rails and fittings, will not
be able to fill the orders until Septem-
ber. This means that if the city does
not obtain the materials from another
source that the work of construction
on the east end extension and other
railway work will be delayed.

MILLIONS LOST IN FOREST FIRES

Many Miles of Timber Reserves
Are Ablaze in State of
Montana

THREE HUNDRED BUSY

Are Making Desperate Efforts to
Prevent Further Depletion
of Forests

Helena, Mont., July 15.—Scores of
forest fires, big and little, are among
the consequences of the long drought
in Montana. From every part of the
state and the adjoining states comes
news of the destruction of timber.
The damage already done will amount
to millions of dollars. Three hun-
dred men are trying to save the tim-
ber in the Kootenai national forest
reserve. The agent in charge of the
National Forest Service reports that
number of fires have broken out
there. Other fires are raging near
Stillwater, Whitefish, Lostee, and
Athens. In the Coeur d'Alene
county of Idaho, and in the Black
Hills of South Dakota, the forests are
ablaze and only by the hardest work
are the fires being kept within the
bounds.

Thirteen Different Fires
Missoula, Mont., July 15.—Officers
of the forest service report that thir-
teen different fires are now burning
in Western Montana and that the situa-
tion is serious. Hundreds of men
are fighting the flames. Two fires
were reported yesterday in the Coeur
d'Alene National Forest. Both are
said to be spreading with great rapid-
ity. There are nine fires in the Lolo
National Forest zone in Bitter Root
forest and one in Missoula Forest.

MILITIAMAN LOST CASE IN TORONTO

Was Employed in Post Office—
Went to Camp—Then Was
Dismissed

Toronto, July 15.—Postmaster Rogers
was yesterday acquitted by Magistrate
Kingsford of a charge brought by
Wm. McIntosh, a discharged em-
ployee of the post office, of having by
dismissal done an act detrimental to
him and in violation of the Militia
Act.

McIntosh, temporary employee dur-
ing the summer season, and paid by
day, had enlisted as a sergeant in the
York Rangers on May 30, to go to Ni-
agara Camp, had been refused permis-
sion to absent himself, and had gone
away.

The postmaster said the dismissal
was for insubordination. "Section II
of the Militia Act," says Mag. Sir
John Kingsford, "specifies the ex-
ceptions from service in the militia.
In this case there was a voluntary en-
listment. While it is unquestionably
in the interest of the public policy to
encourage volunteering in the militia,
it is not in the public interest that
other parts of the government service
should be hampered by unnecessary
volunteering."

"The plaintiff in this case volun-
teered without permission, and in spite
of the fact that he had been expressly en-
gaged to fill a post under the ordin-
ary vacancies. If he had been sum-
moned for not doing his duty under
Section 120 of the Militia Act, he would
have been able to plead a lawful ex-
cuse. On the whole, apart from any
question as to the personal liability
of the defendant for carrying out the
instructions of the department, as
proved by the correspondence filed,
I am of the opinion that the complain-
ant has identified himself to consid-
eration by his conduct in the mat-
ter."

"He acted with full knowledge of
the consequences, and made his
choice."

Futures—Wheat—July, \$1.17 1/2;
October, \$1.09 1/4; December,
\$1.07 1/2.

Grain—July, 41 1/4¢; October,
43 1/2¢; December, 42 1/2¢.

Flax—July, \$2.05; October,
\$1.96.

AGAIN WAGE WAR ON BEEF TRUST

United States Once More to In-
vestigate Great American
Corporations

Chicago, July 15.—The last gun of
the government forces has been prin-
gled and at 10:15 o'clock this morning
another battle with the "Beef Trust"
started before Judge K. M. Landis.
A notable array of counsel will head
the government forces has been prin-
cipal District Attorney Edwin W. Sims.
Will have charge of the investigation
and will be assisted by W. S. Ken-
yon, assistant to the attorney general.

The First Session
Judge Landis today caused the first
session of the trial, the second trial,
when he delivered his instruction to
the newly empaneled federal grand
jury by his reference to the Sherman
Act. He said this was a law by which
Congress sought to emancipate inter-
state and international commerce
from the burdens of combinations and
conspiracies intended to destroy and
restrict competition.

The federal court judge throughout
his entire instructions attempted to
make it clear that there should be no
indictments returned against corpora-
tions.

Follow the Trail
"Follow the trail," he said, "and if
a man is disguising himself in an al-
las he has been found on the trail of
the offending individual."

Although the grand jury has sev-
eral other minor cases to consider, the
entire instruction was confined to the
coming beef investigation. No wit-
nesses were called today, most of
time of the jury being taken up with
minor dockets cases which the gov-
ernment attorneys are anxious to dis-
pose of quickly. Office employees of
the National Packing Company will
be summoned before the inquisitorial
body tomorrow.

ICE CREAM CONES ARE CAUSE OF GIRLS' DEATH

Potomac Poisoning Resulted After
Eating Cones and Death
Followed Quickly

Butte, Mont., July 15.—Two are
dead and one other seriously ill as
the result of ptomaine poisoning
brought on by eating ice cream cones.
Edna O'Brien, aged 5, and her sister,
Flo, aged 3, died in a few hours after
eating the ice cream. A baby 18
months old is seriously ill.

McLaughlin's confession was made
two days before the execution. His
last request was that he should be
permitted to see the girl whom he
partly blames for his crime. He asked
this favor of Sheriff Paxton as his
dying request, but it was declined.
McLaughlin asked the privilege of
against the advice of his spiritual ad-
viser, Rev. Dr. Abraham.

**PRINCE OF WALES GOES
BACK TO DARTMOUTH**

Will Spend Another Year There,
But Will Soon Go to
College

London, July 12.—The Prince of
Wales, who came to London for the
celebration of his sixteenth birthday
and for his confirmation at Windsor,
has returned to the naval college at
Dartmouth. He will remain for some
time longer as a naval cadet, but it
is probable that a change will be made
before long. King Edward in his
youth spent a considerable time at
University, a year at Oxford and then
four years at Cambridge. After his
tour of Canada and the United States
at the age of twenty he went into
camp at the British school of mili-
tary training. In November,
1892 he became a general.

**TO HONEYMOON
IN AEROPLANE**

New York, July 15.—Frederick
Schneider, engineer and aviation en-
thusiast, and Miss Eva Martilla Leon-
hauser are to be married July 20.

There would be no inordinate
amount of importance in this an-
nouncement were it not for the fact
that Mr. and Mrs. Schneider will
spend their honeymoon in an aero-
plane of his own manufacture. They
will start in Long Island and begin
a series of flights that will take them
they do not know whether "so long,"
as the bride-to-be said tonight, "as
it is not in the ocean or on the har-
dly wire fences."

CAMPBELLTON

TO BE REBUILT

Citizens Feeling Optimistic in Spite of Their Great Loss

TO START WORK AT ONCE

Only Seven Dwellings Left, and They will be Nucleus of New Town

Dalhousie, N.B., July 15.—Campbellton will be rebuilt. The citizens of the stricken border town of the north are an optimistic people. In the face of an almost overwhelming calamity they are delightfully and perhaps recklessly cheerful and they are already mapping out a future Campbellton.

"I am confident that the work of rebuilding will begin at once," said Mayor Murray to your correspondent tonight, as he cast his eyes over the charred and smouldering mass, which marks the site of a thriving town of yesterday.

One-Third Lost All This is the sentiment of all and there are many men hereabouts who were affluent before the fire and who are paupers tonight. About one-third of Campbellton's population, which is estimated at 5,500 lost their entire worldly goods, save the clothes they stood in when the fire commenced, but the other two-thirds have something left and that something in almost every case will assist in rearing a new Campbellton. Various estimates of the total loss are made. Some say it is about \$2,000,000, while others maintain that it will reach nearly \$4,000,000. It is impossible just now to be even approximately correct.

Nucleus of New Town Seven dwellings are the sole survivors of the terrible conflagration, and they will form the nucleus of the new Campbellton. Nobody is going hungry. All are being provided for, but of course the present supply of food will not last and fresh supplies are urgently needed. "What do you need most?" your correspondent asked Dr. Murray last night. "Food and shelter," he said in reply.

Bathurst did the handsome thing when the news of the fire was received in the Gloucestershire town. A number of citizens made a house to house canvass and, as a consequence two carloads of food and clothing were shipped to the stricken town.

Relief Committee's Work The relief committee is doing effectively. Five carloads of food and clothing have arrived and more is following. Money, flour, clothes and other articles are being rushed from St. John and all the smaller towns in the province and the militia department at Ottawa has ordered 3,000 tents to be sent from St. John. These are greatly needed as at least two thousand people were in the open fields near the town during a devastating rain. In thirty minutes half an inch of rain fell and all were soaked. Nearly a dozen births have taken place since the fire, all in the open air. So far the mothers are doing well, although it is feared the shock will prove too much in two cases at least.

Only One Fatality One of the most surprising things in connection with the fire is the fact that there was only one fatality and scarcely an accident worthy of note. A gale, whose velocity is almost unprecedented in the history of Restigouche County is chiefly responsible for the devastation of the town. Shacks and relief houses have been hastily erected and about the latter since six o'clock this morning a steady stream of hungry, tired, bedraggled looking people both young and old, poured in to supply themselves with life necessities. The town has been practically placed under martial law and under command of Major Mersereau of the Corps of Guards and assisted by Lieutenant McKenzie, of Campbelltown, Lieut. Arthur McKenzie and Company F of the 73 Regiment.

AFTERMATH OF FIGHT Man Arrested Charged With Stealing Bet Money

Buffalo, July 14.—Roy Salt, said to be chief clerk of the Albany Hotel, New York, was arrested here last night on a charge of grand larceny. It is alleged that Salt was a shareholder in a \$2,100 pool in the Jeffries-Johnson fight and that after the fight, Salt and the men accompanied to the hotel, Salt declared that he placed the \$2,100 in the hotel safe and left it there.

GENERAL BOTHA GIVES PROGRAM

Outlines his Policy in English Speech Before British Audience

Johannesburg, July 15.—Premier General Botha, speaking in English, today outlined his programme in the Wanderers hall in the presence of an audience, mostly British.

His utterance created a most favorable impression. It was a triumph for personality. Botha met with a reception both enthusiastic and sincere and was cheered in a manner that proves that racialism is almost dead among the mass of the people and would not survive for a week if not employed for political ends.

In respect to education, he was heard somewhat on Hertzogism, but reasonable people are satisfied with his statement. The general view is that the Free State of Orange River Colony will in this matter fall in line when the provincial council is elected.

A Durlan dispatch says the speech is regarded in Natal as a magnificent and Imperial deliverance. Botha's promises are trusted, and the Union government is looked to, to redeem them.

FLIERS AT TORONTO. Count De Lesseps Makes Twenty Mile Flight.

Toronto, July 14.—Count de Lesseps the French aviator, made a thrilling aeroplane flight here yesterday evening. He flew from Weston Aviation Park down the Hammer River to Toronto Bay. After skirting the city's water front and circling the City Hall, he returned to Weston safely. The distance is estimated at 20 miles. Count de Lesseps' time was thirty minutes. Walter Brookings is expected here to-day.

THE BEST GOODS AND THE CHEAPEST IN THE CITY

GIRL OF FOURTEEN AND PASTOR ELOPE

Both Say They Did Wrong, But
Are Glad They Ran
Away

NEVER MEANT TO MARRY

Parents Ill-treated Her and so the
Minister Became Father
to Her

Kansas City, Mo., July 15.—The story that a minister of 35 and a girl of 14 from Schenectady, N.Y., told the police after their arrest here is the familiar recital of a run-away pair—up to a certain point.

Beyond that it lifts itself above the ordinary romance. Both admit they did wrong but neither is repentant. And both declare they purposely left the home folks know where they were, so they could be taken back—just to get even with the girl's father.

The runaway, the Rev. Clinton De Witt Sharp of a Seventh Day Adventist Church and Eunice Graham Whitaker, were arrested in a boarding house. They were living there as Mr. and Mrs. Harry Elsworth Artwell. Capt. Whitsett ordered the arrest at the request of William H. Hathaway, the sheriff of Schenectady.

Converted at 14, Church
Sharp has a wife in Schenectady. He and the girl disappeared June 5. Miss Whitaker became acquainted with the minister after becoming converted at a revival in his church last spring. Sharp was discharged by the congregation April 28.

The couple never had talked of marriage, the girl said. They had gone hungry together. He had made a scant living by selling soap and tracts.

"I loved her," the minister confessed to Capt. Whitsett. "She is only a child, but I loved her. I am willing to endure punishment, willing to go to the penitentiary for years. I am willing to be tired and feathered, for I know that the only wrong I have done was an innocent one. I should not have taken the girl away. I know that, but I did it when my heart was full of sympathy and when that sympathy ruled my better judgment."

Prefers Him to Parents
Capt. Whitsett turned to the girl and asked:

"And you would rather be with this man than with your father and mother?"

"Yes," she replied. "I asked him to take me away. I never want to see my father and mother again. I pleaded with him and finally he said he would go. When we got to Kansas City we did not have much money. One June 7 we arrived here and went to a place where we believed we could hide. He has kept every promise he made to me and has treated me as a daughter. There have been times when we had no money and nothing to eat, but we have felt happier than when we were at home with my father. Mr. Sharp earned a living—what living we had—by selling religious papers and writing cards and peddling soap."

"We saw my father's denial that he had mistreated me in the Schenectady papers. We had written letters to five relatives, telling them we were going away because my father had mistreated me, and I suppose the papers got hold of one of those letters. My father denied everything. I told exactly where we were and how we were living and sent it to the papers. Then we were arrested."

Never Intended to Marry Him
"Did you every intend to marry him?" the captain asked.

"Never," the girl said.

"Then how was it to end?"

"I don't know—neither of us knew until that day we saw the Schenectady papers and saw the denial of my father. Then both of us decided to go back there and do what we should have done in the beginning—make public the way in which he treated me. You won't need any requisition papers, we are willing to go without them."

WATER RATE IS TOO HIGH— TORE DOWN HER HOUSES

Installation of Meters Raises Miss
Healy's Bills too High for Her

Roxbury, Mass., July 13.—"Tear down my houses," angrily cried Miss Eleanor Healey, the owner, to-day. "The water rate I have to pay is robbery. Tear them down. I'm better off without them."

Obedient orders of an army of women, children and men attacked two dwellings—one of them two stories, one of three—at Webster street and Douglas avenue. Armed with hammers, rams and levers, the destroying hordes demolished the woodwork of the houses, splintered floors, crushed through partitions, tore off splinters and doors.

In a few hours all that was left of the dwelling was a huge pile of brick, stone and powdered mortar. The army's booty, every scrap of wood, was stored in the neighboring cellars—enough firewood to last for months.

"My water bill for all of last year was \$16," said Miss Healey, who seemed much pleased when her buildings were razed. Now the city has a new water meter system, the quarterly bill was \$22.40. I wouldn't pay. No, I ordered the water turned off and gave my tenants forty-eight hours notice to move. Let others pay such a water rate. I never will."

DRINKS WHISKY ON BET.DIES

Tanner Gulps Down 17 "Jiggers" to
Win St., Then Dies

New York, July 13.—Peter Smith, a husky young tannery worker in Newark, N.J., drank seventeen "jiggers" of whiskey in succession today, thereby winning a bet of \$1. As he pocketed the money he fell to the floor unconscious and died soon after in a hospital.

Dr. Shearer Thinks All Except
Quebec Will Bar Fight
Pictures

Toronto, July 15.—Rev. Dr. Shearer, secretary of the Presbyterian board of moral and social reform, said today that he had received assurances that all the Maritime provinces, Quebec and Saskatchewan, would act to the limit of their power in prohibiting the exhibition of the Johnson-Jeffries fight pictures and that he fully expected Manitoba, Alberta and British Columbia would take a similar action.

EARL GREY LEAVES FRIDAY

Talks With Keenest Interest of
Forthcoming Trip to Arctic

London, July 15.—His Excellency Earl Grey sails by the Empress of Britain on Friday after what he terms a delightful holiday. He talks with keenest interest of his forthcoming Arctic trip. Apparently the length of his occupancy of his post as governor-general is still undetermined, and probably will remain so until the official decision regarding the Duke of Connaught is made known. Lady Sybil Grey remains in England.

MICHIGAN FARMERS HERE

Party from Mayville, Michigan, Looking over Alberta

Secretary Fisher, of the board of trade, received a visit yesterday from several gentlemen from Mayville, Michigan, two of which, Messrs. Hugh Dickie and George Kerr, are prominent farmers of that locality. The remainder, Messrs. J. W. Evenden, and J. E. Cartwright, are business men of that place, the former being a wealthy banker with branches throughout the state in which he lives. Dr. A. L. Seeley, who also accompanied the party, while a medical doctor, is largely interested in agriculture.

The object of these gentlemen, in visiting this district is to inquire into several ranch propositions in the surrounding country. They have made a general tour of the province and have come to the conclusion that the central or northern portions are the best localities in which to invest.

The party travelled through Canada from Fort William, having made the first part of the journey from Michigan through Lake Michigan by boat. They report that the crops in some parts of Manitoba and Saskatchewan are fair.

LARRY PIPER'S WIFE DEAD.

Toronto, July 14.—Mrs. Piper, wife of Larry Piper, the well-known Winnipeg baseball player, is dead after a month's illness. Her husband has been with her for two weeks.

NERVY CROOK FOOLS POLICE

Got Policeman in Calgary to
O. K. a Forged Check

Calgary, July 15.—Robert Donovan, wanted by the local police for cashing forged cheques, is one of the nerviest crooks that has ever operated in this city.

Donovan's specialty is issuing cheques, all for \$25, to which he is said to have forged the name of R. J. Burns. At any rate he cashed the cheques and they are no good at the bank. But this is a mere bagatelle to the nerve he displayed in cashing the first one.

It was no less a person than Officer Vaughan of the city police force that Donovan first approached with his \$25 cheque. Vaughan could not cash the paper but suggested that Donovan try the night clerk at the police station, saying that there was generally some money there. Nothing daunted, Donovan went to the station, but Officer Woodhouse, who was on duty, could not cash the check. However, the check artist thought of a scheme. Was the officer known at the Royal Hotel? He was. Would the officer go there and get the clerk to cash the cheque? He would not go, but he would telephone the clerk whom he knew.

This was satisfactory to Mr. Donovan who wended his way to the Royal, cashed the bad check on the word of the policeman, and later even had the nerve to come down to the station to thank Woodhouse and Vaughan for helping him out. At Dickie's restaurant he apparently cashed another check without difficulty and since then he has disappeared. Donovan has been working at the exhibition grounds and marked all his cheques, which, by the way, were very crudely made out, in lead pencil, "Exhibition account." It was this last artistic touch that took everybody in.

The policemen in the case have to make good the \$25 to the Royal Hotel.

CATALONIA REFUGEES THREATEN TO RETURN

Spanish Government Hastens
Troops to Frontier to Prevent
Expected Influx

Madrid, July 15.—A despatch from Valencia says a battalion of infantry and a regiment of cavalry are ready to depart for Catalonia, where trouble is expected. The order for the troops to be in readiness to depart has created much comment as it was entirely unexpected.

The announcement by the minister of public works that he had abandoned his proposed visit to Barcelona, just as he was about to start, and the order for the concentration of the garrison at Valencia, also causes much speculation and some uneasiness.

The orders to the troops are widely ascribed to the threatened return en masse of the Catalonia refugees who fled to France at the time of the Barcelona riots last year to escape Premier Maura's repressive measures.

Used Gun He Thought Was Not
Loaded, But Found That
It Was

Muskogee, Okla., July 15.—While rehearsing for a literary entertainment in a play requiring the use of a gun, Jacob Windler was shot and killed on a stone bluff near here last night by his chum Everett Olden. Olden used a shot gun which he asserted had been previously examined and found unloaded.

ZINGARI BEAT SURREY

London, July 15.—The Zingari Cricket club beat the Surrey Gentlemen today by 165 runs. Zingari, second innings, 297; Lownborough 136, not out; Wright, 58, Marshall 29. Surrey, second innings, 116; Henderson took 8 for 23, Rathburn, 2 for 22. Zingari fielding was good.

"Scout" for Detroit Baseball
Team Met Death in New
Orleans

New Orleans, July 15.—Jack Horner, scout for the Detroit American league club, and widely known in baseball cities, died here yesterday as the result of a fall. While entering the hotel baths with friends, Horner slipped on the marble steps and fell to the floor, fracturing his skull. He never regained consciousness. He was travelling for the Detroit American League club.

SHIP DESTROYED BY VOLCANO.

London, July 15.—A volcanic eruption in midsea totally destroyed the German steamer Attika July 6, according to despatches received here by Lloyd's to-day. The steamer's crew were saved by the French steamer Radiolene.

The Attika was bound from Novorossisk for Algiers when she was suddenly heaved high on the crest of a gigantic wave.

She buckled and her hatches broke open. So quickly did she fill that the crew barely escaped in boats and they had a hard fight to keep the small craft afloat in the terrific wash or the sea.

According to the sailors the water was warm and of a dark hue. The Frenchman landed the crew at Oran.

WOMAN, AGED 70, ELOPES WITH OLDER MAN

Rockford, Ill., July 14.—While a board of managers of the Winnebago county home for the aged were debating the advisability of permitting the marriage, Mrs. Margaret Johnson, aged 70, a resident of the home for four years, today slipped away to the courthouse and became the bride of Timothy Reilly, aged 75. County Judge Reckhow performed the ceremony. The managers had agreed to sanction the wedding when the announcement was made that the pair had taken no chances of an adverse decision. Mr. and Mrs. Reilly have gone to house-keeping.

WrestlingA FAST AND SNAPPY GAME
DELLAR SHUTS OUT ROBINS

Score was 4 to 0—Moose Jaw was in the Hunt Right up to the Last Innings

The game put up by Edmonton and Moose Jaw was as snappy an exhibition as anybody could wish to see. Both teams were up on their toes all the time and many sensational fielding stunts were provided.

Phil Dellar was on the redoubt for the Eskimos and came very near pitching the best game he had done yet. His curves were breaking sharply and the Robins' hands nearly dislocated their spines reaching "where they crik." Nine of the visitors fanned the cool summer breeze and five hits were the sum total of their united swatting. Nary a blue uniform crossed the plate.

Lee Samuels, once an Eskimo was the opposition finger and pitched very creditable game. He was only hit safely in four innings but a double and a triple in the opening stanza got him off to a two run deficit. Sam fielded his position well and kept the Eskimos pretty well tied down to the base.

The Robins showed a great deal more snap and ginger than on their previous appearance, the exclusion of Elsey the Kinsky Kid, and Irvy seemed to have awakened them up considerably.

But with Dellar in the box and the Eskimos playing errorless ball behind him, there never was a chance of losing the game.

There were a number of features in the fielding line. Bell, the visitors' classy short fielder robbed Mills of a hit and the locals of two runs, by a wild jump into the air. Chesty Cox scintillated in right field, while Morse and Brennan were also in the line-up on several occasions.

Baxter again carried off the batting honors with a single and a double while Morse came through with a triple.

Manager Davis has two more good twirlers in Brown and Sturkel, so the fans should turn out en masse to the remaining games of the series.

Details of the Game

Irvy hit through the box for one base and was forced at second by Crocker's grounder to Dellar. Hurley also hit over second sack but Johnny Brennan disposed of Davis on a foul fly and first base line.

Mills bunted along Bell fanned. Morse batted twice in the first inning and was out by an eyelash. Moose Baxter lifted a twister into short left which was good for two bags and scored while Morse combed a triple to right. Pete ambled in on a wild pitch. Luss, field to left and Spencer fanned. Two runs.

Big Moose Elsey walked in the second and stole second. Jones was taken care of by Chesty. Big ground-out, Morse to Baxter and Samuels fanned.

Bell's Fine Catch

Quigley and Brennan led off in this inning with singles and Chesty advanced all hands. A wild pitch advanced a next bunt. Dellar popped to Samuels and Bell jumped high in the air and pulled down what looked like a sure single, contributed by our Mr. Mills. No runs.

The third was void of a sensation. Luss was the only batter to reach second. He walked, stole and waited. Davis was out, Morse to Baxter. Bell struck sharply to left and Elsey tried to do likewise. Brennan by quick moving knocked down the hot border and caught Bell at second. Jones drove a long one to Luss.

The Eskimos did nothing in their half of the fourth, Quigley and Brennan were infield outs and Cox hit to Bell.

Chesty in Limelight

Dellar stamened them across the pan in the fifth, fanning Bliss and Samuels. Irvy unfurled a safe-looking fly to right and Chesty earned some well merited applause by getting under it after a hard chase.

Hon. Phil took on the arm and chased along to second on Mil's sacrifice. A wild pitch advanced our pitcher another run, and he eventually scored on Baxter's single to right. Moose stole second, sliding almost halfway on his chest and the close decision displeased some of the Robins.

Catcher Bliss' pointed remarks to his Umps drew a slight souvenir. Five dollars. Moose field to right

and Luss fell a victim to Sam. and Hurley. One run.

Can't Touch Dellar

Crocker and Davis retired to the bench by the strike-out routine and Hurley drove a liner into Mil's expectant lunch hooks. Spencer walked and Quig sacrificed to second. Brennan and Cox quickly out.

Jones' Two Bagger

After Bell, Mills and Baxter abandoned the batting box in disgust, Jones lifted a sky-scraper to left which Mills misjudged and the Robins got two sacks. Bliss drew four wide ones and Samuels fanned.

Dellar, Mills and Baxter acclimated to Davis, Bell and Crocker. Short and not too sweet.

Irvy and Crocker were out on flies and Hurley walked. Dellar spit on his hands and fanned Manager Davis.

Our Fourth Run

Morse hit a bouncer to Davis, which was booted for the only error of the game. Luss sacrificed. The Robins arranged themselves around Samuels, as if expecting a photograph to appear, so Pete put down his head and fore made for third, arriving here with great celerity. A nice squeeze play was pulled off on the next ball pitched. Morse scored and Spencer reached first when Davis failed to cover the sack. Deacon running for Stub, stole second but Quigley flied to left and Brennan was called out on strikes.

Bell pulled a screamer towards Brennan and Luss pulled up two runs, due to Ungire Ferguson refused to allow the catch. Elsey, Bliss and Jones gave little trouble, the latter fanning.

Whitewashed version is here to hand.

ABOUT THE ESKIMOS

The Sporting News says: "Edmonton players are all little fellows, except the pitchers and Moose Baxter. Dell has the bunch, although Grady is well over six feet."

"The Western Canada League is playing good ball," says Al Dretchko, formerly of the Seattle Club. He believes that there is a great future for the game in this country, despite the obstacles of long jumps. Quigley, who played second base for Seattle and also for Vancouver, is expected to bolster up the batting strength of Edmonton. He is not only a hard hitter, but bright there with the punch at critical points."

If you'll watch our doors these days you will see many smiling and excited faces going out with bundles from The Boston.

GOTCH BACKS UP

Fort Dodge, Iowa, July 14.—Frank Gotch today emphatically declared he would not fight Jack Johnson. "I am well satisfied with the honors I have won," declared the champion wrestler. Gotch gave it as his opinion that Jeffries would never fight again.

London, July 13.—Kent yesterday beat Somerset by 36 runs and the players beat the gentlemen by ten wickets.

PUTTING BALL
ON RUNNERS

It Requires a In-Fielder to Tag the Runner Properly—Lajoie and Evers Excell

Ability to tag a runner is one point that makes the difference between a good and a mediocre second baseman. Pennants have been lost in the past just because the man at the keystone station lacked the instinctive sense of touching a base "cater" at the right time. Any base magnate will tell you that as many games are lost by the failure of a second baseman to "get" the runner as any other fielding cause, or to put the case stronger, almost twice as many battles are lost because of this feature.

One case in point was in the standing of the Chicago White Sox last season. Jack Lajoie, the regular second baseman of the team last year, was a good, fast man, but he is not a star on tagging base stealers. It has been figured that his failure in this respect cost Comiskey's team a number of hard fought games and it is largely due to this that the former world's champions finished so low in the pennant race last year.

Take a good second baseman like Lajoie. He is a clever, fast, "big man" Schaefer of Washington, or Johnny Evers of the Chicago Cubs. Watch any one of them when a runner starts to steal. Few are able to get a man on second during a close near game. They seem to take the instinct has throw and touch the runner and throw the runner in one motion. Evers and Lajoie probably are the peers in this respect. The instinct has to be born with a player. Atz and many other second basemen of both leagues have diligently practiced tagging men, but many of the great figures at that position would have the runner started back to the bench. Few fans realize how important a thing it is to get a man on second during a close near game. It means that there is an even chance to score on anything like a safe hit. That is the reason why the second base is like a bunter, a good one or a bad one.

Many of the stars have this way of thinking across the line, thus leaving the stealer no way to reach the sack except to use football tactics. Frank Ibsell, the old White Sox second sacker, who is now playing with Wichita, was a wonder in blocking, equalling Schaefer and Lajoie according to many critics.

All three men would make great fullbacks on college football teams, being of large size, powerful and able to resist a shock. But men like Evers who are of slighter build rely more on the craft and speed.

JOHNSON IN TRAINING

Chicago, July 15.—Jack Johnson today announced that he was willing to fight James J. Jeffries again, but that he would demand that a purse of the same magnitude as that fought for at Reno on the Fourth of July be posted for the match.

"This, local sporting men agree, practically excludes any possibility of a return match, unless Johnson concedes more reasonable terms. Even Sig Hart, who is with Johnson here, said that he did not believe any promoter would offer a purse the size of that posted by Richard and Gleason.

"I have not really broke training," declared Johnson, "although I have been boxing heavily and taking an occasional glass of beer. I can get back into fighting trim at a moment's notice and nothing would please me more than to do it. But he said he would discuss terms regarding a side bet and purse when Jeffries issued his formal challenge.

BOB UNCLAUB
TO QUIT GAME

His Grievance Is That Official Scorers Rob him of Hard-Earned Hits

Washington, D. C., July 15.—"This will be my last year in baseball," said Bob Unclaub to one of the Yankee players last week. "I am through with the game after next fall, and nothing in the world will make me change my mind."

When pressed for a reason, Unclaub replied: "There is a clause in my contract whereby I am to receive so much money in addition at the close of the season, provided I hit .300 or better. Now I am away down around the .200 mark, and the worst I have done since I started professional ball ten years ago, and the way the scorers are treating me on the road I'll never stand the ghost of a show to climb higher, and yet I know that I am a .300 hitter."

"Unclaub then related several instances of blase scoring. "In the first game in Boston recently I was robbed of a hit by the official scorer, and the next day I not through Wagner, and he hardly touched the ball, yet Wagner got a hit. In St. Louis I drove one so hard at Hartzell that he had to be carried off the field, the man making a jump on his knee the size of a hen's egg. The next morning the official scorer said in his paper, Hartzell tell Unclaub's feeble roller get by him."

"I was actually robbed out of ten hits while on the road, and I am heartily sick of the whole business. When this season closes I will never play another ball game."

SACRIFICE HITS

It looks as if Umpire Smith has been released. And we never had a chance to see him.

Lethbridge has won four straight games. Have they secured a new lease of life?

Gaddy held on to two hits last night. Rather different from his heartrending experience in Edmonton.

Stub tried to get revenge for his lovely fly last night. He certainly kept Perry on the jump.

We have never been to war but it can be much worse than scoring in the Edmonton press box. If that netting ever breaks—

Elsey and Irvy were there with the copper-lined lungs. The Moose Jaw outfield gave a fine impersonation of Hamilton market on a busy day. Fresh Strawberries! (rising accent on last word.)

Grady will probably pitch this evening. By his last performance he should make the visitors take second money.

Dellar has yet to lose a game on the home grounds. His season's record is 16 wins and 1 defeat, which happened in Regina. Where are those big league scouts keeping themselves.

The way the Eskimos hit the dirt when running bases is far from slow. They give the opposing catchers a lot of worry.

Johnny Brennan says he could just die catching foul balls of third. Has anybody ever seen him miss one?

Sunflower Dell was eager to run for Spencer. Dell is becoming quite a runner since he stole that base on Wednesday night.

Who said Chesty Cox couldn't "come back"? He was frisking around in right pasture like a two-year-old last night and is hitting the ball on the beam. The fans were glad to see him get going on the coaching lines as of yore.

Samuels is a good pitcher but his batting will never win automobiles. He fanned on his three public appearances.

Shlorstorf Bell, last year with Lethbridge, is just as good as ever. He had seven chances in the field, some pretty difficult, and made two hits.

AVERAGES FOR
REGINA SERIES

Slam Dell had the Best Batting Figures, While Chesty Cox was the Leading Regular

The last series with Regina shows that while some of the Edmonton Baseball team are keeping up their high standard with the stick, others fell by the wayside.

Edmonton outplayed the Bonapartes at every stage of the games, and won two out of three, though they should have made a clean sweep.

The figures are:
R. H. E.
Edmonton 3 1 2 660
Regina 3 14 12
Some of the regulars improved their batting figures considerably. Chesty Cox being the bright shining light. Baxter, Spencer, Brennan and Morse displayed their usual close acquaintance with base hits. On the other hand Mills, Lussie and Quigley slumped badly.

The batting averages for the three games are:
A. R. H. P.
Dell 3 1 2 660
Cox 10 0 5 500
Spencer 11 0 5 450
Baxter 10 2 4 400
Morse 11 4 4 363
Brennan 10 2 2 200
Lussie 10 1 1 100
Mills 10 4 1 100
Quigley 10 0 1 100
Dellar 1 1 0 000
Grady 1 0 0 000
Hickey 3 1 0 000

LOHR IS RELEASED

Leader of the Maroons was Canned on Saturday. Krueger in Command

Winnipeg, July 14.—The Maroons started the new fight with a new leader, as Frank Lohr was released on Saturday, and "Hans" Krueger is now in charge of the team. Landers and Langfield were also released.

Krueger has a pretty hard row to hoe to whip his crew into shape, but every fan in the city will pull for the game like Dutchman and he should get better results of the team.

While Lohr was in a measure to blame for the poor work of the team, it was not all a bed of roses for him, and he certainly tried hard. His chief fault seemed to be in favoring men secured from his old team in Sioux City. He also seemed unable to pick up good men to fill the breach when the regular Maroons were crippled.

Krueger will be helped out in his task of rounding the team into shape by Jack Beatty who will likely rejoin the team today.

About Town

The death occurred yesterday of Dalmir Blacksmith, aged 76, at No. 1, McDonald street. Funeral tomorrow afternoon to the Edmonton cemetery.

The Mayor stated this morning that the plans of the Jasper avenue railway subway to be built at the corner of Ninth street and Jasper are expected to be filed in a short time by the C. P. R.

The Newwood Methodist Church is holding a raspberry and ice cream social at the home of Mrs. J. Page on Carey street near the boulevard on Tuesday evening, July 19th, and extends a cordial invitation to all.

The city commissioners have requested the secretary of the board of directors of the new Royal Alexandra Hospital to obtain the authority of the Hudson Bay Company to open up the reserve for the continuation of (Lorwood Boulevard. Until that authority is obtained no work can be done on this city connection.

Grand Trunk Pacific officials declare that the influx into the city yesterday and today of passengers on their lines from Edmonton and throughout Alberta has been extraordinary. Many additional cars had to be added to all trains in order to accommodate the crowds. Though many of the passengers were bound for the exhibition, the majority came down on business, taking advantage of the rates offered by the road. The unusual traffic out of Edmonton was entirely unlooked for by the company.—Winnipeg Telegram.

A good game of football is looked for this evening when the Calles and Strathcona meet in a City League game on the Second street grounds. The boys from across the river have strengthened up considerably and promise to make the Calles step some.

The following team will represent the Calles—Goal, P. Tod; backs, McDonald or Tweedie, McKenzie; halfbacks, Johnstone, Bland and Cowan; forwards, Christie, Wright, Finlay, Tod and Chapman; reserve, Davis.

Jack! How is it that Mrs. Brown can get a quiet hour and drive her lady friends and you cannot get one safe for me. Well, my dear, Brown says: "Horse, Liver, and you Phone 12-44 and 1-12-100. C. W. Jack, Alberta, 1-1-100."

FOR RHEUMATISM

MAGI Water, being a uric-acid solvent, brings remarkable relief to rheumatic users. For gout, gravel and other troubles arising from disordered kidneys, it possesses every decided therapeutic value. Nor does it in any way derange the normal functions of the organs.

Yet, the use of MAGI is not confined to invalids; a glass of MAGI before breakfast will keep the most robust in the full glow of perfect health—tunes one up for the day's work.

For the table, the crystal purity and wonderfully "fresh" taste of MAGI make it unexcelled. There is no mistaking about MAGI—it is not a "dead" water in any sense of the term—just the simplest and most delicious beverage you could imagine.

Bottled only at the Springs, MAGI Water, either plain or carbonated, may be bought from coast to coast. It is sold in bottles, glass, and half-gallons at cafes, hotels, bars, drugstores, on railroad-cars, and cafeterias, or by your grocer by the bottle or the case.

THERMOMETER RISES TO 104 IN BRANDON

Brandon, Man., July 15.—A heat record for Brandon was established here at three o'clock yesterday afternoon when the thermometer touched 104. There is no indication of moisture whatever and it is feared such intense heat will put the finishing touch on the crop.

A LETTER OF THANKS

The management of the United Aids desire to express their hearty thanks to the gentlemen who tendered their services in placing at the disposal of the Fresh Air Camp, the use of their automobiles and rigs. Their kindness was much appreciated.

A very successful lawn social was held in the grounds of the manse, next door to the Westminster Presbyterian church last evening when about fifty young ladies took part in old-time dance of plating the Maypole, followed by a difficult waltz drill, and an exhibition of Indian club swinging.

Seats were arranged in a circle on the lawn before the house, on the verandah of which the Westminster orchestra were seated and rendered an excellent programme during the course of the evening. Ice cream was served and it was very pleasant to be able to sit in the cool of the evening and watch the entertainment instead of being in a confined space.

After the club swinging was over the audience adjourned to the church close by where a vocal and instrumental concert was given.

The programme showed care and forethought on the part of the promoters and was enjoyed greatly by the audience.

W. C. T. U. MEETING

The regular meeting of the W.C.T.U. held in the Y.M.C.A. parlors on Wednesday afternoon was addressed by Mr. G. H. Knox of Des Moines, Ia., an industrial writer, and prohibition advocate of wide experience in the United States. In the course of his remarks he said that the indirect methods so long in vogue, in the fight against the drink evil, will not avail, and must be replaced by the hands-on method.

If our city was being swept by fire we would not be satisfied if the fire department threw a few barrel of water on the flames every few hours, and the commissioners' advised the people to erect only fire-proof buildings in future.

This procedure would be as futile, and as tedious in affording relief, as the lighting we have been doing against the liquor traffic. The great advances of recent years, are due to different tactics.

The commercial world is at last waking up to the fact that the traffic is a parasite on all legitimate business.

This awakening, though tardy, in large measure accounts for the generous contributions made by business men of the United States, to furnish "sinecures of war" for carrying on the fight.

The largely increased prosperity of dry towns and counties, bears eloquent testimony to the fact that commerce does not follow the jug.

The thorough organization and aggressive methods used to free our neighbors to the south, from the intolerable burden of the saloon and its accompaniments, will prove successful here.

The speaker stated that if all the ministers of all Christian churches had simply laid aside their regular work for one year, and given up their salaries, the driving out of the drink traffic, it would have been attained long ago, and a clear course left for the preaching of the Gospel to men. The indifference of the churches has been one reason why so-called Christian countries have staggered under this burden so long.

But this indifference is happily passing away and all indications point to the early demise of the licensed traffic in intoxicating drinks.
